

## BLE Smoke & Fire Curtains

### SHEMOUKH TWIN TOWERS - DOHA, QATAR

Spanning two 22-storey towers and central mezzanine level, the Shemoukh Twin Towers in Doha provide more than 170,000m<sup>2</sup> of commercial and retail premises.

The towers also house a number of amenities including meeting and conference areas, a health club, swimming pool and numerous restaurants.

Working with distribution partner Energy International, BLE supplied fire curtains for the project's generator and transformer rooms. Speaking of the project, BLE's Managing Director Nigel Ward has said, "It is always a privilege to be involved with such impressive projects like the Shemoukh Twin Towers, which have already become an iconic part of Qatar's ever-changing skyline".
