

BLE Smoke & Fire Curtains

CENTRO CAPITAL HOTEL, DOHA

One of the latest additions to Rotana's growing portfolio, the Centro Capital Hotel in Doha offers over 200 lavish rooms and studios.

Opened in 2016, the hotel has already proved to be a popular attraction, thanks to its choice of meeting rooms, gym facilities and swimming pool, as well as a wide variety of dining options.

BLE smoke curtains were supplied via distribution partner Energy International and installed in the hotel's huge atrium - that goes from the ground floor all the way to the last floor.

Speaking of the project, BLE's Managing Director Nigel Ward has said, "For projects like Centro, it was crucial that our curtains provided a discreet and effective smoke containment solution, fitting of the hotel's exceptionally high standards".
