

## BLE Smoke & Fire Curtains

### GULF MALL - QATAR

Located in the northern part of Qatar's capital, Doha, the Gulf Mall offers three levels of unparalleled shopping, dining and entertainment experiences. The Mall boasts a unique mix of famous international brands and the finest regional stores and kiosks.

Working with distributor Energy International, BLE provided smoke curtains for all of the Mall's atriums, as well as fire zone separations.

Speaking of their involvement, BLE Managing Director Nigel Ward has said, "It is such a thrill to be involved with such major projects in a rapidly developing region. Many thanks to our partners at Energy International, with whom we have many more projects planned."
